# CHANGE MACHINES

## CHANGEURO EASY

### TECHNICAL SPECIFICATIONS

Sizes/Dimensions	260 x 440 x 335 mm for desk or wall mounted version
	260 x 1,400 x 335 mm for the free standing, base included version
Weight	20 Kg for the desk or wall mounted version
	35 Kg for the free standing base included version
Power supply	230 Vac - 50 Hz
Consumption	40 VA max
Operating temperature range	-10° +50° C

### INSTALLATION

The machine can be wall mounted, by means of three screws to be inserted through the back of the change machine. As an alternative, Comestero offers the free standing version.

### APPEARANCE AND ERGONOMIC

The electric blue colour in combination with the silver door, is a feature of the Change Euro range giving it a very pleasant appearance. Upon request, it is also possible to customize the door colour choosing from red, green and yellow. The machine is totally manufactured in plate with a tubular lock to provide the highest safety standards. Extremely easy access to the cash box and hopper loading procedure is provided by the rotating door, conceived to allow easy machine management and maintenance.

### ELECTRONIC AND MECHANICAL FEATURES

Available in several versions with:

- RM5 Evolution electronic coin mechanism
- NV4 Note reader
- LCD or LED display
- Electronic board with cash audit data available
- MKIV Coin Controls hopper with an extension included for an average of 2,500 coins/tokens capacity
- MKII Cube Hopper Suizo with extension included for an average of 3,000 coins/tokens capacity.

All the above components can be configured in a wide range of combinations, to offer flexibility for various applications.

The machine can be turned on and off only through an internal switch, preventing tampering.

Thanks to the additional door available on the top of the machine above the hopper, fit it with a safe tubular lock, the customer can access to the hopper for easy filling.
